## INSANE PRISONER KILLS HIS KEEPER

Deputy Sheriff Is Stabbed to Death by Man He Was Taking to the Asylum.

The prisoner had not been handcuffed on the train, as he seemed perfectly rational and had talked with the sheriff and with other passengers on the car. The attack on the sheriff was utterly unexpected, and the stabbing was done with a pocketknife with one large blade as keen edged as a razor. The sheriff drew his revolver, but was unable to cope with the lunatic and he was cut and stabbed in a dozen places before he fell.

## THE PENNY THAT FOOLED MANY

April First Found Many a Victim On The Old April Fool Tricks.

An innocent-looking copper coin, soldered to a nail and spiked down to one of the planks on the sidewalk of the Milwaukee street bridge, was the cause of more than one smile today. The penny was located on the open side of the bridge, directly opposite the Rehberg store, and it is rumored that the genial proprietor of that institution could tell something of its history and the way in which it came to be nailed down where it is. This report is not authenticated.

Out of several scores who noticed the coin, a few entirely forgot the new leaf of the calendar which came to view today. They innocently stooped to pick up the coin; then they walked on with a futile attempt to give the impression that they were "wise" from the start. Others approached the coin more cautiously, giving it a side kick to see whether it would budge. The most witty of them stooped down with his jack knife, and smilingly began to pry the penny loose. His smile faded when his knife-blade snapped in two. At times during the morning there were two dozen persons lined up on the street awaiting the next victim.

This was only one of the All-Fools' day jokes which enlivened the business streets today. The candy stores did a good business in paper lined molasses chips and chocolate drops filled with washing soap. The old familiar "Klek Me" and "April Fool" signs were not in evidence on the downtown streets.

As it was McGovern shouted, "I will fight you again and winner take all." Corbett remained cool and calmly told the Brooklyn boy he would fight him on any conditions he asked for.

**Police Present**  
Police and friends then led McGovern to his own dressing room and quieted him down. The crowd was disgusted with McGovern's action after the fight and he was roundly hissed by the spectators. Evidently the same bolt after leaving the round house jumped from the building to an umbrella carried by a girl who was walking along the Beloit tracks, near the building. Johnson was fined \$25 and costs for violating the fish and game laws.

Schoyen came to Mr. Overbeck's office to get satisfaction for the dog and in an altercation called Overbeck a liar. The warden is said to have choked Schoyen and Henry Grass threw the saloonkeeper out. Schoyen then went to the governor's office, where he mistook Executive Clerk Huber for Mr. La Follette and demanded justice. Later he swore out a warrant for Mr. Overbeck.

## BIEDERWOLF MEETINGS GROW DAILY MUCH MORE IMPORTANT

THE AUDIENCES SHOW RESULTS  
OF HIS PREACHING,

THURSDAY TO BE A BIG DAY

Elaborate Plans Are Being Made To  
Have the Most Successful  
Meetings Thus Far.

All efforts of the committees in charge of the revival services now in progress are being centered on the plans for tomorrow. On that day the "Mid-week Sabbath" will be observed, and the entire day given up to devotional services, the intermission between the different meetings being very brief. The first session will be held at six in the morning and the last will take place at the usual hour. The day is to be made the high tide mark of the entire series up to this time.

The results attained thus far have been remarkable. The attendance night after night has tested the capacity of the great auditorium. Interest has been unflagging from the start, with the two meetings of last Sunday standing as the record in point of numbers. On that day it was possible for many to come out who did not feel able to hear Rev. Biederwolf during the week. The fervor manifested on a part of the recent converts has been marked. At every session several new signers are secured for the signs which are distributed through the house. The purpose of the cards is to allow expression of church preference, that the pastors of the churches may know which congregation those who are beginning the Christian life desire to join.

**The Afternoon Meetings**  
At the Court Street Methodist Episcopal church this week the afternoon services are receiving generous patronage. Those who have attended them realize the truth of Mr. Biederwolf's injunction to be present at the afternoon meetings if at all other. This afternoon's address is given in part later on. The subject, "The Filling of the Spirit," was handled in a masterly manner, and deeply impressed the listeners. Delegations from Beloit are in daily attendance upon the meetings. Yesterday afternoon and evening and today members of the different Lino City congregations have been present. On some days the total has reached over a score, and not a day passes but what some two or three make the trip over the Interurban. The Beloit pastors are especially earnest in their attendance upon the meetings.

The afternoon's address follows in part:

**The Filling of the Spirit**  
Acts 19:2—"Did ye receive the Holy Spirit when he believed?" Now to what did Paul refer? Some think to the gift of tongues and prophecy, because this is what they received as the close of the narrative shows us. This is not unlikely. Now the 120 gathered in the room at Pentecost—all of them, disciples and all others—were filled with the spirit and spoke with tongues and prophesied. How do we know? Because the Bible says so in so many words. And now since Paul exhorts us in the Ephesian letter to "be filled with the spirit," supposing in the instance before us he did have in mind the "gift of tongues and prophecy," what more need we see in it but one way in which the spirit filling these disciples manifested himself for the glory of God?

The filling of the spirit is not always manifested in the same way and so in one sense it may be said that the Apostolic experience is a thing of the past—I mean so far as the miraculous results and accompaniments are concerned—but the filling itself in which the various fruits of the spirit and the various manifestations of the spirit find their source. This it seems to me must necessarily be the same for all people. The shaking of the house, the tongues as of fire—they were the accompaniments of the filling; the speaking in foreign languages, and other miraculous equipment—they were the results of the filling; these things God has chosen to dispense with in this day but the filling of the spirit itself, the experience possible for you and me, and which means so much for the Child of God, how can it be other in itself whatever its manifestation than the same with the filling received by the disciples and early Christians and when Peter seems to have said was for every one whom the Lord, our God, should call.

**Lessons of Text**

We are now ready to make the three following observations.

1. That the filling of the spirit is different from the indwelling of the spirit. Every man receives the spirit at regeneration. "If any man have not the spirit of Christ, he is none of His." Romans 8:9: "Know ye not that ye are the temple of God and that the spirit of God dwelleth in you." 1 Cor. 3:16: But having the spirit and being filled with the spirit are things entirely different.

2. The filling of the spirit is subject to regeneration. This is a privilege which belongs of course to the Child of God. One must be born again to come into it, and while it is possible to be so filled immediately upon conversion it more usually belongs to our later experience when we have come to appreciate more fully the privileges and responsibilities of discipleship.

**Disciples Were Filled**

3. The filling of the spirit is a matter of degree; it has its measure. In a very certain sense there is, but one filling beginning at the moment of regeneration and varying all through life according to the surrender we make of ourselves to God. In another sense there are many fillings according to the specific need of the hour. The disciples were filled many times but it only was in greater degree an experience of what they already possessed.

4. The filling of the spirit is not some exclusive privilege of the main-

later or the missionary. When Paul said: "Be filled with the spirit," he was speaking to Christians—very ordinary Christians—very ordinary too, those Ephesian Christians, by the way. The teaching of the New Testament has lent a dignity to what we have been wont to call the common place and the secular and where ever duty calls you, be it in the home or in the store, if your occupation is an honorable one and carried on as it should be for the glory of God, you have a right to expect and an obligation to permit the Holy Spirit of your God and mine to fill you and to fit you for that service.

## MANY SWISS ARE GOING TO MONROE

Party of Nine Were Here Yesterday,  
and Others Have Gone  
Before Them.

Nine foreigners, chatting volubly and tightly clasping each others' hands as they strolled three abreast up and down the sidewalks, attracted their full share of attention on Main and Milwaukee streets yesterday afternoon. They were the majority of a party of about a dozen who have just arrived from Switzerland, and are on their way to Monroe.

There they expect to gain employment as cheesemakers and farmers, and the girls in any line of work they can secure. Six men and boys and five girls made up the party. There were sixteen of them when they reached Chicago, but the rest remained in that city to seek occupation. Only one of those who are here, and who left for Monroe on the 6:50 p. m. train could speak a word of English. She was Miss Marie Glosz and was making her second trip in this land.

Nearly every day immigrants pass through this city, most of them bound for cities of the northwest, although a number of Swiss have recently gone to Monroe, Brodhead and Mineral Point. A number of Norwegians and Swedes have recently gone through Janesville, most of them bound for Minneapolis.

## WALKING CLUB IS DOING STUNTS

Five Young Men Have Organized to  
Enjoy the Early Morning  
Air.

Several young men of the city have organized a pedestrian club, the members of which meet daily at the Grand Hotel in the still hours of the morning and go for a speedy heel and toe walk of three to five miles. The first walk was taken Monday and covered a route which had the good grounds as its terminus. Tuesday the gentlemen met at 5:35, clad in sweaters and knock-about clothes and proceeded out through Monterey to the Blind Institute and back through Spring Brook, making the round trip in an hour, so it is stated. Their appetite for breakfast is said to have been marvellous. Any member of the club who fails to show up at the specified hour in the morning for the walk will be required to buy a dinner for the rest of the club. Among the members are Dave Young, Louis Levy, Julius Levy, L. L. Leslie and C. S. Dunn.

**Married in Rockford:** Miss Ida Alkin, daughter of Mr. and Mrs. Morgan Alkin of Ruger avenue, and Mr. John Ferguson of Cottage Grove, Dane county, were quietly married Monday at the Congregational parsonage in Rockford. They returned to Janesville that night and went to their new home in Cottage Grove Tuesday morning.

Everybody in the ranks is aspiring to force a peace. The rebel forage trains have been abandoned. They only forage with single mules in small parties. The county people within the rebel lines are reduced to half rations. Families are each numbered, their stores inventoried, and the excess over all short allowance appropriated to the army. No beef has been issued for the last week at Shelbyville.

The premium on gold has fallen heavily in Wall street. 143 1/2 was the quotation yesterday. Today it sold as low as 140 and 139 1/2 and a further decline is expected. This fall has created a perfect stampede in the markets, especially among the produce and dry goods dealers. It is estimated that some of our cotton goods merchants had over a million dollars knocked off their profits yesterday.

## WHAT THE COMMITTEE HAS RECOMMENDED TO THE COUNCIL

PLANS SUGGESTED FOR REOR-

GANIZING CITY FINANCES.

WOULD ESTABLISH A SYSTEM

Gentlemen Who Inspected the Present  
Management of City Books,  
Want Changes.

To the Mayor and Common Council of the City of Janesville, Wisconsin. The undersigned, the committee appointed by your honorable body, to confer with the city clerk and the city treasurer with a view to improve their methods of bookkeeping, have had the matter under consideration and beg leave to report:

On examination of the books of the city clerk and city treasurer, we find the lack of a complete system in keeping the various amounts of the city. While the system in use now served all purposes when adopted some fifty years ago, when the revenues and disbursements of the city were but a small part of the amount now required. It now falls short of meeting the requirements of the taxpayers, who annually contribute about one hundred and fifty thousand dollars (\$150,000.00) for the support of municipal government. The system under which they are now working does not enable the city clerk nor the city treasurer to show, on brief notice and in a concise manner, intelligibly, to the average tax payer, the condition of the various funds of the city. The two offices have been kept practically as one and an examination of the books of both is necessary to obtain a full understanding of the city's financial condition.

**Some Defects**  
The most noticeable defect in the office of the city clerk, is the failure to keep a record of all claims and demands placed in the hands of the treasurer for collection. The city clerk should keep a double entry set of books, comprising a Journal and a ledger, and be required to take off a trial balance monthly in a book kept for that purpose. He should charge the city treasurer with all general and special assessments, licenses granted by the council, fines imposed and all other items of revenue due the city, crediting the various funds with their allotment of the sums as provided by the charter and council; then as he draws on the treasurer, he should credit the treasurer with the amount of the order and charge the fund with the amount of the order, and if the treasurer pays out no money except on order, properly drawn on him by the order of the council, the accounts of the two offices can be readily reconciled and only by collusion or false entry would it be possible to fail to detect an error or omission in either set of accounts.

**Remedies Named**  
It is but fair to the present city treasurer and clerk to say that the books are kept as well as the system will permit, and a skilled accountant, knowing the sources of the city's revenues and amounts, could by taking sufficient time, demonstrate the correctness of the book keeping under the present system.

**The Revenue**  
The principal source of revenue of the city is from taxation, and amounts to about one hundred thousand dollars (\$100,000.00) per annum, being divided into various funds, the largest being the school fund, which is under the control of the school board. The next largest fund is known as the general fund. This fund seems to your committee to be like charity that covers a multitude of faults. We believe that a great many amounts are charged to this fund that properly belong to ward funds. It is used as a clearing fund for all unclassified claims, from the cost of constructing the city hall to the per diem of the woman who scrubs the floors. Your committee think this account should be kept in numerous sub-divisions and they would suggest crusher account, street cleaning account, officers salaries, police, legal etc. Your committee also think that the clerk of the school board and the clerk of the library board should respectively report to the city clerk, the number of each order, amount, and for what drawn, issued by their respective boards. As these orders are drawn on the treasurer, the city clerk can then credit the treasurer with the amount and charge the amount to the proper fund.

**Simplifies Matters**  
This puts all the city bookkeeping, receipts and disbursements, on one set of books, making it possible at any time, on short notice, to give an accurate report of the financial condition of the city and also at the end of the fiscal year, to show what each department of the city government has cost, to show what the police have cost, what the salary account of the city officers amounts to, the cost of maintaining the schools, subdivided into teachers' salaries, fuel repairs, permanent additions and so on.

**Suggestions**  
Your committee further recommend that the city furnish the street commissioner with a duplicate order book and that he be directed to give a written order for all merchandise of any kind he buys, stating both on the original and duplicate order, the fund to which the amount is to be charged, and that anyone selling goods to the city be required to attach such order to their bills, when they render them to the city.

**Street Work**  
Further, that the street commissioner be required to keep a time book and a duplicate of same, of all persons who work for city under his charge, showing the wards or funds to which the services are chargeable. The duplicate time book to be kept in the office of the city clerk and to be written up daily by the street commissioner to the close of each previous days business.

**Further Plans**  
Your committee further recommend that all invoices for materials, supplies or merchandise of any kind

bought by any one, for the city, after being paid and receipted, be pasted in an invoice book, such as are used by merchants, and properly indexed, and that this invoice book be kept in the city clerk's office where any taxpayer can have access during business hours.

**Good System**  
Your committee believe that such a form of accounting as they recommend will impose no more work upon any officer than the method now in use and will admit of indefinite subdivisions of accounts, which may be grouped at the end of the fiscal year, thereby showing the total expense of any department of the city government. A municipality is a business establishment and should be conducted like other business concerns. We believe that the system suggested, or one substantially like it, is in use by all well regulated business houses and manufacturing in the country.

**Questions**  
We may naturally ask ourselves why this unsatisfactory method of accounting has so long escaped public notice. That it was not attracted public attention is largely owing to the confidence our citizens have in their representatives and the disposition of the tax payers to attend to their own private business, without interfering with that of our public officers. This spirit of non-interference is commendable but should have a limit. That the members of your committee have been personally influenced by it as much as others, they fully realize that there is no less responsibility resting upon them in regard to the present condition than upon any other of our citizens.

In conclusion we wish to thank the city clerk and city treasurer for their courtesy in submitting to us all books and records that we have felt in need of in our examination and beg leave to respectfully submit the above report.

L. B. CARLE,

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Green's warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded.

## A Layman's Lenten Sermon.

Thirty-first day of lent, St. Luke, XII 40v.—Be ye therefore ready, for the Son of Man cometh at an hour when ye think not.

This is a warning for all ages. Be so prepared that you can face your Heavenly Judge without fear. Hold your lives so in hand that you are ready to depart from this life at a moment's notice.

Christ, the Master told his disciples this that they might tell after generations that the Son of Man would come again to judge His people at an hour they least expected. Think this Lenten period has your life been so conducted that you are ready to meet your Heavenly Judge. Think if you have given enough time to your prayers, to your daily devotions. This is a period of repentance and prayer. Fit yourselves so that when the Son of Man cometh

you will be ready.

Think woman of the clubs and circles, if you have devoted enough time to your children, have insisted in them that love of God that they should have. Think if you of the busy society world have given enough time to your husband to make his homecoming pleasant and his hours with his family ones of rest and comfort.

You man of business, think if you have given enough time to your family. Think if you do not prefer the associations of jolly companions to your own household. Think if you have not stayed out nights and have failed to pay that respect to your wife and her comfort that should have been bestowed.

For the Lord will come in all His glory and many will be called, but few chosen.

## ...April Magazines...

A book that has helped me is The History of the Rebellion and Civil Wars of England, by Edward Earle, of Clarendon. I am by nature and education a Cromwellian of a rather narrow type. I am more likely than not to think of Charles I. as a man of sin. When, therefore, I brought home Clarendon's History, I felt a glow of conscious virtue; the whole volume was an outward and visible sign of inward and spiritual grace, the grace of tolerance; and so I have ever been to me.

Years have passed and the days of leisure have not yet come when I could devote myself to the reading of it. Perhaps the fact that I discovered that the noble Earl's second sentence contains over two hundred and ninety words may have had a discouraging influence,—but we will let that pass. Because I have not crossed the Rubicon of the second chapter, will you say that the book has not influenced me? "When in sessions of sweet, silent thought," with the Earl of Clarendon, "I summon up remembrance of time past," it is necessary that I should laboriously turn the pages? It is enough that I feel my prejudices moving away, and that I am convinced, when I look at the much prized volume, that there are two sides to this mat-

ter of the English commonwealth. Could the most laborious reading do more for me?

Perhaps Clarendon unread is as good for my soul as Clarendon read or Clarendon re-read. Who can tell?—S. M. Crothers in April Atlantic.

**How To Sell Goods**  
(From the autobiography of a shop girl, in Leslie's Monthly for April)

"You must know how to talk with a customer so that she will buy," is one of the things the buyer says over and over again in his lectures down in the basement. Even when the girl is behind the counter at work the buyer will often step up and give her a hint. For instance, he will give you a new name to an old piece of goods. There is everything in a name. He came up to me one day and said, "Call that line of goods the 'Marlborough,' and it was not long before I had sold the entire stock. The sweller a name is, the better, of course. 'Cumberland' pins, even if they are the same thing. French names are much in vogue, too, and many are sometimes coined. Names taken from swell sports, such as, 'Ping-pong' are also very good sellers. Another thing of course, which helps a girl to sell the goods is genuine knowledge of them.

## ....Northwestern's Earnings....

In the first eight months of the current fiscal year, to end May 31, the Chicago and Northwestern has earned fixed charges and dividends (including that on the new stock) for the entire year and has left a surplus of \$1,750,000. All the net earnings of the remainder of the year, therefore, together with the \$1,750,000 already earned above charges and dividends, will be clear surplus.

The net annual charges this year, including sinking fund, will be about \$6,600,000. Dividends on the old stock at the rate of 8 per cent, on the \$22,395,100 preferred and 7 per cent, on the \$39,114,700 common would call for \$1,529,537; and one quarterly dividend on the new stock, \$9,226,100 would call for \$161,456, a total of \$11,291,093 for the year's

dividends and fixed charges. Adding this amount to the \$1,750,000 surplus indicates net earnings of \$13,041,093 for eight months, which compares with \$16,938,478 for the fiscal year 1901-02.

Gross earnings in the first nine months of the present fiscal year have increased \$1,030,000, and net earnings for the seven months can be figured from the company's statement for the calendar year 1902, have decreased about \$600,000. This does not mean, however, that the road is not doing so well as last year since it is very probable that maintenance allowances have been unduly large in these months, or that fuel and supplies have been bought ahead and charged to current expenses. Increased cost of operation has undoubtedly been a factor, but the increase in gross should offset this.

## ...To Follow The President...

An idea of the extent and resources of an industry with which the general public is little acquainted is about to be furnished in connection with the tour of President Roosevelt and party across the continent. Persons who noticed the street vendors who line the curbs on the occasion of any public gathering and dispose of cheap badges and other gaudy souvenirs to the crowd who would hardly believe that these ubiquitous and noisy gentry represent a calling that of late years has reached the vast proportions in America and is backed by resourceful brains and vast capital.

That such is the fact however, is evidenced by plans that have been perfected in this city whereby it has been arranged that a party of more than a score of these professional fakirs or hawkers, shall accompany the presidential party from the time it reaches Chicago until it returns

to Washington in June after accomplishing a trip to the far Pacific northwest. It being impossible to travel in the presidential train it is necessary that the vendors of souvenirs canes, etc., keep constantly jumping ahead and waiting for the presidential train to catch up. Thus a party of ten will reach a city a day before the president and be on hand to supply the crowds, while another party that has covered the preceding stop will but jump on to the second or third city and wait the coming of the distinguished tourists. Meanwhile other members of the "syndicate" are to remain in New York to supply the souvenirs to points previously agreed upon. The success of the project means a large outlay of capital and incidentally a study of time tables and a mapping out of a route in the same careful manner as is done by a big circus en tour.

It will without doubt prove one of the fashionable and principal events of our dramatic season.

## LATE BOOKS

Mrs. Humphrey Ward's novel "Lady Rose's Daughter," published by Harper & Bros. in three editions, one for the favored few, who have plenty of money to spend, the others for the multitude of readers who care more to have the story in good serviceable dress than in decorations. "Lady Rose's Daughter" is a strong personal novel that appeals to a wider range of readers than do most books. The heroine Lulu Le Briton is a fascinating woman, whose type the reader follows with increasing interest from the beginning to the end.

## HALF CENTURY OF GOVERNMENT

Today Marks the Golden Anniversary of the City's First Election.

The first municipal election was held in Janesville fifty years ago today. The city was incorporated March 19, 1853 and the first election held April 1.

The officers elected at that time were A. Hyatt Smith, mayor; treasurer, Charles Jordan; city attorney, Eli McKee; city engineer, W. F. Thompson; city marshal, M. S. Prichard, C. P. King, Orrin Guernsey, and Wm. Hughes, assessor.

**The Aldermen**  
The aldermen elected were: First ward, B. F. Pixley, E. L. Roberts, W. P. Horroughs; Second ward, John J. R. Pease, Timothy Jackman and George Barnes; Third ward, Ellery A. Howland, B. B. Eldredge and Chas. H. Conrad; Fourth ward, George H. Williston, Geo. W. Taylor and John Carlin.

Of all those who held city offices at that time none are left to celebrate this fiftieth anniversary of their election. This is probably one reason why there was no effort on the part of the citizens to have some sort of celebration, as there was no one left who took interest enough in the day to start a public movement.

**Many Mayors**  
Twenty-five men have occupied the chair of mayor since the organization of the council. During this time Dr. J. W. St. John has held the office for three one-year terms, Joseph P. Doe, Sr., John Winans, John Thoroughgood and Victor P. Richardson have held the office for two terms each. The other mayors are E. L. Dimrock, John J. R. Pease, Wm. A. Lawrence, Sanford A. Hudson, H. B. Treat, John Mitchell, Henry Palmer, A. A. Jackson, R. A. Loveland, Anson Rogers, Jas. Sutherland, Hiram Merrill, Capt. Phiny Norcross, S. C. Cobb, A. P. Lovejoy, Thos. T. Croft, Alexander Richardson, O. D. Rowe, F. S. Haines.

**Can Be Teacher:** Seven high school seniors were successful in the teachers' examinations held by County Superintendent Hemmingsway, March 19-21. Several more took the examination, the successful ones were Mary Roberts, Clara Shoemaker, Luck Rice, Grace Carpenter, Hattie Anderson, Will Curtiss and Mary Curtiss.

**Were in Madison:** A delegation of manufacturers and shippers were at Madison yesterday to meet the legislative committee on the shipping bill, which was up for a hearing. There was about a dozen in the party.

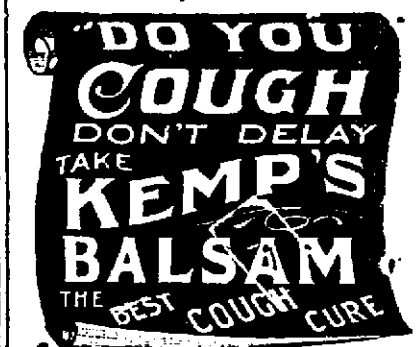

**Goes into Bank:** A. H. Hayward, for several years head bookkeeper for the Jeffris company, has left their employ and this morning assumed charge of the savings department of the Merchants' and Mechanics' Savings bank. Mr. Hayward is a first-class bookkeeper and his many friends wish him success in his new position.

**Lightning Works April Fool:** The lightning this morning worked an April fool on the fire department and gave them a run to the Janesville Machine Co.'s plant. About twenty minutes to seven there was a flash of lightning and immediately afterwards box 41 was rung in. The boys turned out in quick time but as usual there was no call for their services.

## KILLS GERMS OF CATARRH

Hyomel Goes to the Root of the Disease and Makes Astonishing Cures.

"Catarrh" cannot be "cured" by the use of pills, liquid medicines and so-called system tonics. Under such treatment the germs of the disease will still live in the air passages and increase and multiply.

Hyomel is the only scientific and thorough way to cure catarrh, killing the germs in the air passages, it enters the blood with the oxygen, destroys the microbes in the blood and effectually drives from the system all traces of catarrh poison.

Thousands of testimonials have been given as to the astonishing cures made by this remedy. J. S. Nugent, treasurer of the American Union Life Insurance company, of New York City writes: Hyomel has completely cured my daughter of catarrh, from which she suffered for years.

Probably the strongest evidence that can be offered as to the powers of Hyomel to cure catarrh is the fact that The Peoples Drug Co. agree to refund the money to every customer who can say that Hyomel has not cured them.

Now is a good time to cure your catarrh.

## PLATFORM

The following resolution adopted at the convention when the citizens ticket was introduced is the platform of the campaign.

Resolved, that it is the sense of this convention, that the mayor and common council and the board of education of this city, should in every particular, be governed by the provisions of the charter under which the city is organized; and we demand that in all matters the requirements of the charter be strictly observed.

Resolved, that strict economy in the administration of our city affairs is especially desired, and we demand of all city officials that business principles be observed, and a better system of bookkeeping and accounting adopted.

## AS REFORMERS

The reform wing of democracy is out with a list of questions propounded to the Municipal League. The experience of posing as reformers is so new to this virtuous organization that the public will not be surprised at anything that may be attempted. In passing judgment it may be well to keep in mind the fact that the work of the Municipal League has not been encouraged by this element, whose principal stock in trade is slot-machine and lawlessness.

They express a desire to know why more has not been accomplished by the league. If they will possess their souls with patience it is quite possible that their list of questions will be answered to their entire satisfaction. It requires a little time to cure chronic diseases but in this case the remedies appear to be effective. There was a good deal of bile in the system, some organs were dormant and others too active, but the stone crusher and city hall have acted as a mild cathartic, and the grand jury and people's tonic will do the rest.

The public understand that nothing would be thought of in the way of municipal reform, but for the league movement. In order to make this movement effective, it was necessary to do something. The citizens' ticket exists because something has been accomplished, and the administration of city affairs is undergoing reform because the people, through the league, have found a medium to work. The ticket will be elected and permanent reform will follow.

## YOUNG MEN IN DEMAND

There never has been a time in history when young men were in as active demand as today. More attention is given to the age limit than ever before and the significant fact in connection with the new order of things is, that it stands a man in hand to win success before he reaches the age of fifty.

Railway companies, and all other large corporations, demand young men for active service. The United States Treasury department, under the management of Secretary Shaw, is about to weed out a lot of pensioners, and fill their places with active young men.

The progress of the age is not very largely thwarted with sentiment. Business of all kinds demands activity and but little regard is shown for age or length of service. This demand for young men should be an incentive for every boy to prepare himself for positions of responsibility. There are places waiting for him in every department, and opportunities were never more abundant than today. The world is calling for men with good eyes, good ears, clear minds, and clean hearts. While age may retain the two latter faculties, no way has yet been discovered to prevent the ravages of time, and physical faculties always fall with advancing years.

The man at 60, discovers that his step is not so elastic, and his vision not so clear, and while the changes are so gradual as to be scarcely apparent, yet he is forced to admit in spite of inclination that powers of

endurance are weakened, and he is already on the down grade.

His friends may flatter him by telling him how young he looks, and how well he holds his age, but he knows, and the man who employs him knows, that he isn't the man he used to be. There are a great many pensioners on the payrolls of large hearted employers, who are not regularly pensioned.

It is always a pitiable sight to see a man on the down grade, out of employment, not because he is not willing to work, but because his task can be better performed by a younger man.

While every man should be active up to the limit of time it is well to prepare for the age where possibilities are limited.

## PRINCIPLES INVOLVED

The wing of the democratic party which is out for public office, has declared a platform of principles. This aspiring coterie of politicians, seem to have overlooked the fact that the citizens movement is founded on principles, and if they really desire to favor reform, that more could be accomplished by joining in this popular movement, than by running an independent ticket.

The people will be skeptical, and the few democrats who are attempting to represent the party as leaders will not be disappointed if they are accused of other motives. The citizens party represents more than democracy or republicanism. It is as free from politics as a club, and as destitute of political ambition as a church society. The candidates selected by this party are neither political candidates nor office seekers.

They represent the people in a demand for business reform. The democratic party, or the remnant of it not in sympathy with the movement, has no excuse for existence in the present campaign. They would attempt to steal the livery of reform to serve the devil in. When they talk about a platform of principles it is a burlesque and a travesty. They wouldn't recognize a principle if it was labeled.

This sort of pretense will not fool the people, for they are too much in earnest over genuine reform. The citizens ticket will be elected by a majority that will silence and rebuke all opposition, however, much it may be tinsed with high sounding principles.

It is a little late in the day for the Recorder to talk about reform. Every movement made by the League has been burlesqued and maligned, from the day the movement was inaugurated. The city government will be reformed, but the Recorder is hardly in position to claim much in the way of glory.

If the governor and his admirers really want a primary law, the assembly will accept the senate amendment. The people have not expressed a desire for any particular brand of the new innovation, and the governor himself expressed in his message a willingness to unite on some plan that would be satisfactory.

Assemblyman Valentine is to be congratulated on voicing the sentiments of his constituency on the primary law. Messrs. White and Britton were found in the other column. They were evidently unable to resist hypnotic influence.

The Milwaukee Journal attempts to claim that the presidents western trip is made for political purposes. The claim is far fetched. The people will be glad to meet the chief executive, and will not accuse him of political designs.

It is well for the South that Senator Tillman represents nothing but himself. His tour through the north has contributed nothing for the benefit or enlightenment of either north or south.

Janesville voters who believe in reform will support the citizens ticket. The flag end of democracy offers nothing enticing, and their conversion is of too recent date to inspire confidence.

If Pennell murdered Burdick, he has already paid the penalty, and Buffalo might as well dismiss the case and save expense.

The governor will now have an opportunity to pose as a martyr. He is a good poser, and will doubtless make the most of his opportunities.

## PRESS COMMENT

St. Louis Globe Democrat: Some unexpected difficulties must be expected in the construction of an Isthmian canal, but no one is better qualified than Uncle Sam to overcome it.

La Crosse Republican and Leader: Secretary Cortelyou has already made a lunge at monopoly. He has sent a man to Japan, to import breeding terrapin.

Milwaukee News: However, before running for president, the Hon. David Francis should pull out that worlds fair that he is engineering. After he gets through with the board of lady managers he may not be in a fit condition to enter actively into the strenuous life.

Chicago Chronicle: Chicago pays 15,910 persons \$14,675,847 a year. Of this total nearly 7,000 are employed by the school trustees and they receive more than a third of the money. Yet there are agitators among the teachers urging them to demand more pay from tax payers who feel that their burden is too heavy now.

Chippewa Herald: The members

of the National Dressmakers association, now in session in Chicago, have passed a resolution providing that when male escorts are not otherwise obtainable they shall be hired. Judging by the appearance of the average shawl bearer, thirty cents would be a fair price to pay for one escort.

Eikhorn Independent: Governor La Follette has signed the bill to submit to the people at the coming election, a proposition to increase the number of judges on the Supreme court from five to seven. From interviews with lawyers, and men who know much of the supreme court, and who say that the justices are now overworked, it would seem that this amendment should prevail.

Whitewater Register: In nearly every column of our exchanges as we look them over, we see the word, "Whitehead." "Whitehead" repeated almost endlessly. And every time we see it in the first sensation that hits us is "Whitehead." "Whitehead" and what now about Whitewater the next thought. Well, if it cannot be "Whitehead" we know of no name we would rather read than Whitehead.

## MUST MAKE THE FIRST PAYMENT

Business Men's Association Wishes All Subscriptions To Cement Post Company Paid By Saturday.

A. E. Bingham, Secretary of the Business Men's association, wishes notice given that those who made subscriptions for the Cement Post company should make their payments before Saturday at any one of the four banks in the city. It is a matter of necessity that the money be in by that time, as the first payment by the association to the company is then due, and must be met. Subscriptions for the Vudor Shade company have been speedily settled, for the most part, but the cement company list has not met with as rapid response, although the Business Men's association committee made a favorable report on that condition of the plant several weeks ago, and the bonus was voted paid.

## DEMOCRATS ARE NOT ALL ANGELS

EVEN THOUGH THE RECORDER PAINTS THEM SUCH.

### THE TRUTH IS WHITEWASHED

Those Barn Cats Are Afraid to Come Out From Their Places of Retirement.

Sunday's Recorder, in its report of the democratic city convention, said that a motion to adjourn seemed of more importance than resolutions, and that "the convention came to an end."

Tuesday's Recorder says that the democratic party "deems it proper to state to the citizens the principles upon which it stands," and then proceeds to tell in one, two, three, order what the democrats believe.

The question is, which of these statements is correct, and who is the "it" referred to that feels authorized to state principles which the party convention failed to act upon?

When was it that light first broke in upon these democratic candidates, which causes them all of a sudden to pose as reformers in city affairs making their own platforms and asking foolish questions?

Do they suppose that other people cannot ask questions, too?

Some people would say that the Recorder has been a very poor representative of the democracy for the past several months, if its present position is sound. Consistency is said to be among the jewels, but the public is trying to recollect when it was that the Recorder has referred to "reform" except with a sneer?

The Recorder says that "the democracy of the city disclaims any blame or participation whatever in offenses committed against the city, and that it has never sanctioned or approved any dereliction of duty on the part of any city officials."

This may be true so far as the democracy is concerned but how about the men who assumed to represent them in the city hall?

Haven't they and their backers been acting as party leaders? Has the Recorder been asleep, or has "it" conveniently winked "its" eye the other way?

If the Recorder is so earnest all of a sudden for prosecutions, why did it keep silent during the years that these alleged violations were going on? Did it represent the democracy then, or does it represent them now for the purpose of getting votes?

To make this all the more conspicuous the Recorder now says that the league has discovered so many "cats under the barn" that it is "partially paralyzed and no efforts to capture made," etc.

If this is the fact the league owes neither apology nor explanation to any so-called representative of the spring democracy as the paper has done nothing but sneered at efforts to give the city a better government.

The only logical conclusion to be arrived at, after reading the Recorder's articles from the pen of the democratic candidate himself is, that nothing has happened for which anybody should be sued but at the same time he favors throwing out a sweeping drag-net to gather in everybody that ever sinned.

Unfortunately these two positions do not hitch. The league can make mistakes but its principles are before the public and the voters are to judge of its good intentions. As to the Recorder's question box, and its numerous insinuations against candidates on the citizens' ticket, the editor might consult the law department acting in behalf of the citizens for legal points concerning the suits pending precisely as he would in other cases. And as to the reflections upon citizen candidates for violating the charter he should consult the records when he was school commissioner and accepted pay for taking the school census. Or he might consult the city attorney whose opinion will be all the more valuable on account of having been a school commissioner and knowing all about these things years ago.

Finally, if the local democracy represented in the Recorder office will feel any better, there is one more question. Why don't they place candidates in nomination to these offensive gentlemen on the citizens' ticket.

### NOTICE TO ADVERTISERS.

On and after April first, 1903, no contract will be made for business localities. The rate for this class of advertising will be ten cents per line for each and every issue of either Daily or Weekly. The "Gazette" adopts this policy for two reasons:

First.—To improve the news columns of the paper. The first consideration of any newspaper is the reader and its value to the advertiser depends entirely upon its popularity with the reading public. Business localities frequently flood the composing room the last hour before the paper goes to press, and news is sacrificed to meet the demands of this class of business. Second. The Daily Gazette is rapidly extending its circulation throughout the county, giving the Janesville merchant an opportunity to talk to the farmer as well as the city customer. It is for this reason that the paper is increasing its circulation by increasing the value for advertising purposes.

The Gazette has also adopted what is known as the space rate for display advertising, and prices have been placed within the reach of all advertisers.

The paper has long enjoyed a liberal patronage from home merchants, and it is in position today to furnish better service than at any time in its history.

**BEWARE OF PICTURE AGENTS**

Fake Representatives Are Not From Hildebrand.

Hildebrand, the artist, has no canvassers in the local field, and any persons representing that they are connected in any way with him are making false statements. It has come to Mr. Hildebrand's ears that citizens are being approached by persons purporting to be solicitors for him and it is against them he desires to warn the public. Mr. Hildebrand's work is all done at Frank D. Kimball's store. His wonderful reproductions of portraits has attracted more attention than any recent local happening. His artistic ability is drawing work to him from all about the county and on account of the urgent calls for his services he will remain another week in the city. If you happen to be one of those who have not seen Hildebrand at his work, look in at Kimball's large window the next time you are down town.

## NEW INDUSTRY MAY COME HERE

CHICAGO LABEL AND BOX COMPANY

### ARE NOW LOOKING FOR A SITE

Will Investigate Janesville Conditions if Properly Approached on the Matter.

After experiencing heavy losses through labor difficulties, the Chicago Label and Box company has under consideration a change of location. Among the prospective sites for a new plant is Janesville. Business men of the city have been approached in regard to the desirability of making some offer to the company, with a view to inducing them to come to the Bower City. A. E. Hingham has written to them, in behalf of the Business Men's association.

Talk of Coming

H. Kirk White was in Chicago last Thursday, to place orders for goods made by the firm. In the course of a conversation with L. E. Randall of that firm he learned that they were dissatisfied with their location, and were contemplating a change. A year ago they were kept idle, together with all other label and box concerns of the city, for nearly three months, while orders came piling in which could not be filled.

Chicago Labor Difficulties

Unions have the employees so closely organized that failure to secure what they consider their just demands leads to a call for a general strike throughout the city. There are so many companies in Chicago devoted to this industry that a company which was located beyond the influence of such strikes would have a manifest advantage.

In the course of his conversation Mr. Randall made careful inquiry regarding Janesville conditions. He wished to know the possibility of securing a location, of the attitude the citizens would take, and of the general municipal situation, and the external signs of prosperity.

Two Hundred Employees

150 men and 50 girls are employed by the Chicago Label and Box company, which has its factory on Lake street, near Franklin. Their trade is principally for the pharmaceutical fraternity, including drug labels, patent medicine wrappers, and paper and pasteboard cartons of all descriptions. A quantity of fine lithographing is done, and about twenty-five of the employees draw extra high salaries, and are men of great skill. The others receive good wages.

Increased Population

If the company should locate here, it would mean the bringing to this city of a large number of new families. At the same time it would furnish employment to a number of local men and girls. Mr. White believes they would be willing to move for an inducement no greater than that offered some concerns which employ barely half the number of hands.

THE JOPLIN DISTRICT

Detailed Investigation of the Lead and Zinc Mining Region of Missouri.  
During the last two seasons detailed investigations have been carried on in the lead and zinc mining region of southwestern Missouri and particularly in the Joplin district, which embraces parts of Jasper and Newton counties, Missouri, and the eastern part of Cherokee county, Kansas.  
This is the most important zinc producing district in the United States, the output of zinc ore in 1902 being 223,337 tons, valued at \$6,678,504, and the quantity of lead ore produced during the same time being 26,862 tons valued at \$1,265,605. The investigation of this district has been conducted by Mr. W. S. Tanager Smith, assisted by Mr. C. E. Siebenthal, both of the United States Geological Survey.  
A geological map of the district is in preparation, based on a detailed topographic map, known as the Joplin District Special, is already available. In addition to showing the occurrences of the different rocks, the geologic map will show the areas that have yielded ore as well as their mutual relations.  
Careful study has been made of the occurrence of the ores and their associated minerals, and of their relation to the geology of the region in general.  
The report of this investigation will be illustrated by maps, sections and photographs. It is intended to supplement for the Joplin district, the preliminary report on the lead and zinc deposits of the Ozark region already published by the survey. The new information presented (aside from the geologic map) will consist chiefly of matters in detail, but it is hoped that further light will be thrown on some of the extremely complex problems connected with the occurrence of lead and zinc in this region.

**Pain**  
In My Heart I Could Not Lie Down.  
Was On The Verge Of Insanity.  
Choking Sensations I Was Afraid To Sleep.  
"For years I was troubled with pain around the heart, fluttering and choking sensations—part of the time could not lie down. In short I was a nervous wreck; such violent jerking of the arms and limbs; nervous prostration—in fact was on the verge of insanity—as I tried to sleep for fear I would never awaken. I saw a testimonial in our paper from a man similarly afflicted, and an account of the help he derived from the use of Dr. Miles' Remedies. By the persistent use of the Heart Cure, Nerve and Pain Pills I soon felt like a new woman. I am never without these remedies now. In writing the above I feel that the half has not been told. No one who has not been through it knows or can know what on the verge of insanity means. Your remedies were surely a god-send to me. There is scarcely a week but what I recommend them and in nearly every case induce someone to try your remedies, and the results are so satisfactory that they continue to take them. One recent instance I recall. I was in Lawrence and called to see a friend who was very sick with muscular rheumatism. She was nearly crazed with pain and had given the money to my mother to get her some morphine to quiet the pain. I told her what your Pain Pills had done for me and finally persuaded her to send for them. She had only to take two of the Dr. Miles' Anti-Pain Pills and she was free from pain."—Mrs. Arthur Osborn, Decatur, Mich.

## DENIES WAR ON LA FOLLETTE

Congressman Babcock Says He Is Not Fighting Wisconsin Governor.

Washington, April 1.—Representative Babcock of Wisconsin contradicts the story that he is organizing a movement to defeat Gov. La Follette. He says he is not preparing to fight anybody, as he does not fight men, but principles. Mr. Babcock also denies the report that he is to quit public life and go to farming. He says his son has purchased a farm that has a fine lake on it, but it will be several years before that lake is stocked with the right kind of fish to make it really attractive to him. He has no intention of voluntarily retiring from congress in the near future.

A business meeting for the semi-annual election of officers was held last evening in the Guild hall. The secretary was instructed to cast the ballot of the society for the present officers to succeed themselves for the ensuing term, they being: Pres.—Wm. Drummond, Sec. & Treas.—Miss Lillian Allen.

The opening party of series of the Y. P. S.—after Lent—will be in the Assembly hall, Tuesday, April 27th.

The committee in charge have planned this party to be the nicest ever given by the Y. P. S.
